

Our school joins the A.S.P.I.R.E. Learning Partnership

From April 2011, our school has joined a partnership of seven schools in Milton Keynes called the 'ASPIRE Learning Partnership'. The partnership of schools will work together to deliver projects and develop services that will benefit pupils, parents, and our local community.

The partnership is already up and running and has already started completing pupil consultations in the schools to identify activities that they would like to see delivered. The partnership has also been granted £20,000 from National College to fund a 'business manager' role to see how our schools can work together to save costs and generate income to be reinvested in our schools.

Head Teachers met earlier this month to discuss school priorities and the aims of the ASPIRE Learning Partnership. All Head Teachers agreed that developing positive links with parents and providing family learning opportunities are important goals to achieve by March 2012. The six common priorities that the partnership aims to achieve include:

Active Communication between schools and parents | Smooth Transition between schools |
Partnership approach to achieve more for less | Including parents in child's learning |
Raising pupil attainment | Evidence based approach

Over the next two terms our schools will be raising the profile of our new partnership by delivering central venue family events and also highlighting our achievements in school newsletters.

The ASPIRE Learning Partnership is managed by Development Manager: Pete Lindsay and he will be based at each of the schools throughout the school year. If you have any questions regarding the partnership or have an idea on how our schools and communities can work more effectively together please contact Pete using the contact details below.

ASPIRE Learning Partnership Schools:

Brookward School | Giffard Park School | Great Linford School | St Andrews School |
St Monica's School | Willen School | Wood End School
